

Degen Designs is the Home of the Baby Boomer Quad. The only compact quad that is pre-strung for easy assembly.

**Band Coverage 10m, 15m and 20m
Turning Radius 6ft 11 inches**

The BBQ101520 is designed to function both as a permanent Heavy Duty base antenna, while allowing for the option of using it as portable temporary antenna do to its design for easy assembly. The compact, heavy duty design allows the antenna to be used in areas where less than 7 feet turning radius is required while withstanding wind speeds in excess of 85mph.

FINALLY, NO FIELD TUNING REQUIRED!!!
